

HYDROGEN FOR CLEAN TRANSPORT

FUEL CELL AND HYDROGEN INITIATIVES PAVING THE WAY IN EUROPE
22 September, Brussels

We are pleased to invite you to attend the **Hydrogen for Clean Transport Conference** on 22nd September 2017, from 10 am to 4 pm at the EU Charlemagne Building. Seven major global vehicle manufacturers Audi, BMW, Daimler, Honda, Hyundai, Toyota, and Symbio will gather in Brussels to confirm their engagement towards continued fuel cell electric vehicle (FCEV) deployment in Europe.

The event is a partnership between the European Commission's Fuel Cells and Hydrogen Joint Undertaking, and the EU's flagship hydrogen projects: HyFIVE and H2ME. Held at the EU Charlemagne Building, Hydrogen for Clean Transport will showcase the advances made by hydrogen technology in the transport sector and demonstrate its readiness for widespread commercialisation in Europe and beyond.

During the morning session, sector experts will share the conclusions of the HyFIVE project, demonstrating the benefits of hydrogen technology both for transport and for advancing the air quality and green agendas throughout Europe. In the afternoon, the focus shifts to the EU's ongoing hydrogen initiatives H2ME-1 & H2ME-2, and how the sector is overcoming the challenges and barriers faced by the technology. An expert panel will debate strategies for overcoming these challenges, outline the prospects for hydrogen in the transport sector, and present the way forward for FCEVs in Europe looking to 2020.

To attend, please *register online via the following [link](#), using the password **HCTevent** to access the registration form. A full agenda and details of our distinguished speakers will follow shortly.

We look forward to seeing you in Brussels.

The Hydrogen for Clean Transport Team

*For security reasons, all persons attending the HCT conference are required to provide data to confirm their identity to gain access to the EU Charlemagne building. Please provide the requested data to ensure access to the venue. Failure to present a valid hard copy of an e-pass and a passport or identity card will prohibit entry to the Charlemagne building for this event. All data provided is protected under EU law, and is treated confidentially and will not be used for any purpose other than that which is stated above. E-mails may be used for project communication purposes. If you do not wish to receive e-mail communication please opt out via the registration form.
